How to Play

This is a solo adventure game.
All you need is this booklet, a pencil, and a few dice (d4, d6, d8, d10, d24).
As you read the story, you'll face challenges [⁉️]. For each, describe what your character does, then roll to see how well your strategy works. Use Health, Stamina, Traits, and Equipment to survive, solve problems creatively, and shape the story your way.
There's no wrong answer — this is your journey.

How to fold this booklet →

Name:

Health

20

Stamina

5

Character Description:

Traits

(Distribute 3 points across two different traits):

1. _____ +
2. _____ +

Equipment

1. _____ *d*
2. _____ *d*
3. _____ *d*
4. _____ *d*

Stamina

You start with **5 stamina points**.
If a roll fails, you may try again.
But doing so costs **1 stamina** point.

Player's Reference

Critical Rolls

- Max Roll (e.g. 6 on d6): Critical Success! Gain 1 Loot 💧, heal 1 Stamina, or narrate a major advantage.
- Min Roll (e.g. 1): Critical Fail! Trigger a twist, setback, or minor injury (-1 Health or drop an item).

Health

You start with **20 health points**.
When facing a challenge [⁉️]
1. Describe how your character tackles the situation.
2. Roll a Strategy Die (normally a d6).
3. Then roll the Challenge Die indicated in the story.
   - If your strategy roll is higher, you succeed.
   - If it's lower, subtract the difference from your Health.

If the rolls are equal, you succeed at a cost (e.g. lose 1 Stamina, damage gear, attract danger).

Traits

You can freely choose two traits and assign **3 points** total.
Relevant traits add their bonus to the strategy roll.

[⚠️] Choose specific and interesting traits — not generic ones like "strength" or "intelligence."
Examples: Sneaky +2, Mechanic +1

Equipment

Your gear matters! If your equipment logically helps with the situation, you may roll the die associated with that item instead of the base d6.

Item Power = Die Size:
- Weak: d4 (fragile, basic)
- Standard: d6 (everyday tool)
- Strong: d8 (specialized gear)
- Rare: d10 (enchanted, masterwork)

Example: A climbing kit (d8) lets you roll d8 to scale a cliff.
